

North Cotswolds Primary Care Network (PCN) – Enhanced Access appointments

Did you know that the North Cots PCN offers appointments outside of normal practice opening hours?

Cotswold Medical Practice
Chipping Campden Surgery
Mann Cottage Surgery
Stow Surgery and
The Whitehouse Surgery

provide GP telephone calls between 18.30 & 20.00 on a rotational basis, they also host weekend clinics offering services such as women's health, HRT reviews, travel vaccinations, health and wellbeing support, and more.

These appointments are offered across the practice locations so if one of these clinics is suitable for you, you may be offered an appointment somewhere other than your own surgery.

If you find it difficult to attend your surgery during normal opening hours, we may be able to help in an enhanced access clinic.

Please ask your receptionist.
